

Izumigaoka

Taniyama Shie

Izumigaoka is a junior high school. I'm an Izumigaoka junior high school student! I will explain this school to you! Let's study!

In the morning, we read a book. It's book time! It's a very good time! First period, we study Japanese. First, we have a test! It's "mojiryoku". We must study hard. Second period, we study math. It's very very difficult! I am always sleepy, but I will be a very smart girl if I study hard! Third period, we study science. We sometimes do experiments. It's very happy, but we study hard. Oh, my god... Fourth period, we study social studies. We study about history and geography. I often talk with my friends. And our teacher's mobile case is very cute. Fifth period, we study English. We sometimes have word tests and key point tests! It's very difficult. I must study hard. Our teachers are very beautiful! Sixth period, we do physical education. We play soccer, basketball, tennis, and run marathons. I don't like marathon. We must run 2 km. It's very hard, but I like P.E.! Seventh period, we study art. The art teacher is a high school teacher! They're very specialized! After school, we have clubs, such as basketball, tennis, badminton, calligraphy and art! I'm in the badminton club. It's very hard, but I'm happy!

We have a good time at Izumigaoka! Let's study at this school together!

Izumigaoka

Miyazaki Yuna

This school is Izumigaoka!

There are many students with individuality at this school.

For example, very smart kids, very funny kids, athletic kids, etc.

Spending time with them makes every day so much fun!

It's very exciting for me.

The teachers' classes at this school are very enjoyable.

But it's a shame that I have a lot of homework and a lot of tests.

But it's so much fun that I can live a fulfilling life every day!

This junior high school also has club activities.

There are five sports clubs for men and women and three for cultural clubs.

Each club works hard and has fun.

I also belonged to the basketball club until last year.

Both my peers and seniors in club activities were very kind, interesting and fun.

This school is wonderful in both literary and martial arts.

My school's Studies Nagano Rinta

I go to Izumigaoka Junior High School. I like my school. This school has very interesting teachers. Their classes are very nice and very speedy. So we study very hard every day. Math and Science are very difficult. We study third grade level in second year of junior high school. Those are good points for us. We study kanji very hard, because we have "Mojiryoku test" every Thursday. It is very difficult. So we usually have small tests in Japanese class. Thanks to that, we can get good scores. I like Social Studies. We usually use computers in Social Studies classes. They're very nice classes. We can understand it well, because we can look at lots of data. I study English the hardest of all subjects. The high school teacher teaches us. We have "Eitan contest". It is very difficult for us. So we study English word very hard. We are usually busy, because we must study hard. But, I like this school.

Izumigaoka J.H.S. Hagiwara Mona

Izumigaoka junior high school is a good school!

It has a lot of good students. They are all smart and cool. But it's an interesting and fun school. I enjoy school life every day.

Izumigaoka has many fun events. Among them, the best event is "Tosensai". We do it with high school students. I enjoy Tosensai with high school students.

We are also working hard on club activities. There are eight club activities at Izumigaoka junior high school. They are : badminton, basketball and tennis teams, as well as, art club, calligraphy club, brass band, science club and external school activities. Every club seems to be fun. A lot people belong to club activities.

All the class are fun and easy to understand. Some teachers are interesting. High school teachers teach art, calligraphy, music and home economics.

Lunch time is not a school lunch, but we bring a lunch boxes. I eat the lunch box my mother made for me. We can buy bread at the school shop. There is also a vending machine there.

Izumigaoka is a wonderful school!

Our school “Izumigaoka” Kubo Hibiki

I go to Izumigaoka junior high school every day. It's about four kilometers from my house to Izumi. I'll talk about our school and our school life.

Izumigaoka has 120 students. Each class has 40 students. My classroom is on the third floor. Izumi is a very beautiful school because we always clean our classrooms and other classrooms. Izumi has many classrooms. The science room, the music room, the computer room, the nurse's room..... Izumi is very large.

We must come to school at eight-ten and read a book or study. Then, we say “Good morning”, at eight thirty. We have seven classes from Monday to Thursday. But on Friday, we have six classes! So I like Friday very much. Our lunch break is only forty-five minutes. I usually talk with my friends or read a book during lunch break. After school, we have club activities. Our school has seven club activities. The boys' tennis team, girls' tennis team, boys' basketball team, girls' basketball team, girls' badminton team, science club, calligraphy club and brass band club. Many students are in the clubs. I'm on the girls' basketball team. I practice basketball hard every day.

Our school life is very exciting. I love Izumigaoka very much. So I hope that many elementary school students will say “I want to go to Izumi!”. Thank you!

Izumigaoka Tachikawa Yuna

I am an Izumigaoka junior high school student. Izumigaoka is a very interesting school! I will introduce Izumigaoka's big events. We live our school life with Izumigaoka high school students. So we hold cultural festivals and sports festivals with high school students. All together, they are called “Tosensai”. It takes place in September for 3 days. First day, we go to the MJ hall and we see many programs, such as theater and dance performances. It is very interesting.

We sing a song with all of our classmates on stage, too. It is a good experience! Second day, we can enjoy many programs at school. We present independent research, go about our school and so on. It is so fun! The last day is a sports festival. There are relays, teamwork, and dances. It is very exciting! High school students' relays are also interesting. This is the best big event of all the school events. But there are many other fun events. Izumigaoka is a good school. Let's enjoy this school life together!
