Izumigaoka is Great

I'd like to introduce about “ Izumigaoka Junior High School”. First, there are one hundred and twenty students and nine teachers in Izumigaoka J-H-S. They are interesting and full of individuality. The nine teachers are so kind! Also, Izumigaoka High School's teachers will give a class. The high School's teachers are kind and interesting, too. And, there are many school events, more than other schools. For example, there is Teikisen, Tosensai, Hyakuninnisshu tournament, and so on. Tosensai is especially the biggest event in Izumigaoka. It is an event that combines a sports festival, cultural festival, and chorus contest. This is a great event, isn't it? Actually, it's so fun and exciting! Tosensai is in summer, so we can spend a nice summer! C-time is one feature of Izumigaoka J-H-S, too. C-time is an abbreviation for communication time. We can take an ALT class once a week. In this class, we study English with fun. Brenda and Ellixis who are ALTs in Izumigaoka are so kind! So, Izumigaoka students must like English! Izumigaoka J-H-S has many features. And, school life in Izumigaoka J-H-S is so fun. I think that Izumigaoka is a great school! Thank you for reading.

C-TIME

Minato Ide

There is C-Time in Izumigaoka. We do activities and learn English in C-Time class. In C-Time, we learn English from Mr.Ellixis and Ms.Brenda. They are kind. We do many interesting activities. For example, we look for eggs all around the school on easter day. There are many eggs all around the school. We collect those eggs. This is very fun. And we talk about our trip with Leo. If you went on a trip with class pet Leo, you talk about the trip. This activity is fun, because our class mates went to many places. My friend went to Fukuoka. And he watched a baseball game of the Fukuoka Softbank Hawks. And my other friend went to many shrines in Miyakonojo and Mimata by bike. We can listen to many interesting stories in C-Time. We do the English game "kahoot" in C-Time too. We do this on a computer. We choose the correct answer and battle with classmates. This is fun and very good study, because we choose the answer very fast, so we can practice English speaking. We can learn English communication with fun in C-Time.

C time is an English class, so that's why students will be speaking English well. I like my school very much. Thank you for reading.

Tosensai

Kenshin Ohwatari

Do you know Tosensai? It is the name of the school festival in Izumigaoka. The first day , we go to MJ hall and we can sing songs and listen to music. The next day, we make works and show it. Last year, we gave a presentation of SKT. SKT stands for natural science research. You can decide the theme and research it as you like. We can also see the high school students' works. It is fun. The last day, we have a sports day. We can enjoy a lot of games. For example, we have a relay, dance and tug-of-war. Tosensai is once a year. I'm looking forward to next year.

Everyone is very friendly and united. I'm very happy to have met them.

There are also many very nice teachers. The teachers make our school life enjoyable. And at Izumigaoka Junior High School, there are many interactions with High School students. We can look forward to the college exam in 5 years. Most of the classes have 7 hours, but only Fridays have 6 hours. Only on Thursday morning,

there is a "Mojiryoku test" which everyone studies so hard!! There are 9 clubs. After school, we are active all the time. Recently, the school rules have been improved and updated.

Here is interesting information. There is a very white "Izumi Foundation" in this school. So, don't touch the walls. If you touch it, you will get white powder. Izumigaoka Junior High School has a lot of charms. I love it here. I want everyone to know about this school. Please come and visit!

My school

Yamashita Aki

I go to Izumigaoka junior high school. Izumigaoka has many exciting events like Tosensai (school festival), izumi camp, and a graduation trip etc. Of Izumigaoka's exciting events, my favorite event is Miike camp! Miike camp is held about two weeks after the entrance ceremony. We entered Izumigaoka and soon went to a camp!! I was so surprised because we were unfriendly at that time. But we arrived at Miike, one hour later. We become good friends with our classmates. Miike camp is very interesting. In Miike camp, we tried to make a fire, cooked curry rice, made a wooden board and climbed the mountain. It was very fun. Next, about Izumigaoka's class. Izumigaoka has a big class too. I will talk about science class here. Izumigoka's science class's charm is that there are

many experiments. We get new discoveries and an interest in science. Above all, I like experiments because experiments are always interesting. Like this, Izumigaoka is a great school. Will you try coming to Izumigaoka?
