I went to Singapore during summer holiday. Singapore is an Asian country. Its capital is also Singapore. Most of the people there speak English because it is an official language. But there are three more offical languages, *Malay, Chinese and *Tamil. This is because Singapore people come from many other countries.

The area of this country is about 70 km². It is so small. It is the same as the 23 *wards of Tokyo.

About 5,410,000 people lived in this country in 2012, and the number of people per square kilometer was 7650.

You can enjoy sightseeing at many places.

The time difference between Singapore and Japan is only one hour.

It is summer *all through the year.

Do you want to go there? Please try to go! I can give you information about Singapore.

Thank you for listening.
